

Web Design Packages Pricing: Very Basic

Price Range: \$500 - \$700

If you are looking for the least expensive and fastest way to get on the Internet, then a 3-page package could do just that.

Package includes:

- 1-3 Pages Web Design that is Mobile-Friendly
- WordPress (or another platform) Content Management System: This will let you update your text and images going forward.
- 1 Year of Web Hosting
- Domain Name
- Local Search Engine Optimization
- Google My Business Set-up

What's Good:

- If you are on a tight budget, then this is a good way for you to at least get started on the web. Both the local search engine optimization and the Google My Business setup will help you rank in local searches.
- It's important to make sure that have a mobile-friendly web design because more people are searching on their mobile devices these days.

What's Bad:

- If you are not very comfortable with technology, then you might find it challenging to update your content on your own.
- To rank higher in search results, you need to have lots of quality content and you need to be adding content regularly to your website, so one page is not enough to get your website found.
- A 1-3 pages website will not give your potential customers a very good impression of the professionalism of your company.
- If you have any technical issues, you will need to figure it out yourself or pay for technical support.
